

## Updated Ravensworth Statement on the Coronavirus COVID-19

**19 May 2020**

Ravensworth continues to take the threat of Coronavirus (COVID-19) extremely seriously.

As a result of the UK Government's latest announcement regarding some relaxation of Lockdown measures and the careful return to work for the Property Industry, on 18 May 2020 Ravensworth re-opened its service operation bringing some teams back from Furlough.

All our technical ordering platforms are now open and **we are now able to fulfil all print orders again.**

If you have an enquiry about a print order then please email or call us as normal.

**We are also now able to fulfil any Digital, CGI or Design Studio work.**

Regarding our print manufacture, we have business continuity plans in place for several eventualities. Our production team continues to operate 3 separate shifts. These are separated by 30-minute intervals to allow time for a full cleaning and disinfecting regime. We are also restricting access to the production environment to ensure contact is limited.

Regards
